Quand utiliser le format arch.Q: how to refactor with the jsdom lib I'm currently learning some NodeJS, and I try to use the jsdom lib to test my code. My question is: How to refactor with jsdom? A: You can't really do that, because that library really isn't meant to be used to test, only to build HTML. Some people do things like building it and then using it to generate fake HTML to be sent to the server, but if you can, I would recommend avoiding doing that, because it causes all kinds of problems. Instead, when you're doing a test, you
